OUR STORY

GDXAUTO is built-in Taizhou, Zhejiang, China.
A professional sourcing consultant (agent) the automotive aftermarket.

China owns the largest and best automotive parts manufacturer resources in the world.
It's easy to find the suppliers. But there are many difficulties and potential risks to find the right one for making quality products.

That's why I decide to create a one-stop auto parts sourcing solution to help you buy spare parts from China more easily and efficiently.

I used to work in a global major shock absorber and air suspension manufacture in China.
That's why we startup our sourcing service from the products which we know well.
We're familiar with the raw material, production process, product development, quality standard, and marketing demand.

Attitude is everything rather than age.

Come to be part of our story. We help you sell more!

A collection of various automotive parts is displayed on a reflective surface. In the foreground, a black shock absorber stands vertically. To its right is a white air filter housing with a yellow and red pleated filter. Behind these are several black coil springs. To the left, there are various suspension components like ball joints, tie rods, and control arms. In the center, there are brake pads and rotors. The background features a white plastic reservoir with green caps and a black radiator-like component. The overall scene is well-lit, highlighting the metallic and plastic textures of the parts.

“ I have been dealing with Cettina for more than a year. She is a very responsible and customer oriented professional.

Her responses to our request are very fast and really beyond our expectation. Even though she is considers quite new to the automotive aftermarket, you will be surprised from the knowledge she has learned in the short period.

From her commitment and dedication to serve customers the best she can, I'd strongly recommend her to any company who is looking for a high caliber sales and marketing professional.

“ I am writing this letter to recommend Cettina Xia for the position of sales representative.

Cettina was a key sales representative. She's a diligent worker and a very capable saleswoman, and I'm sure she'll be successful in any company.

Sales requires a natural skill in dealing with people and knowing the right thing to say, and this was perhaps where Cettina set herself apart the most. Customers like me loved her and she was able to connect with me in a meaningful way. Her skills, and the results she achieved, make sure that she comes with the highest recommendation.
